WHY PAINT FLAKES?

Beautiful yet versatile, decorative paint flakes are easily incorporated into seamless epoxy and polyurethane floor systems.

They make a great alternative to expensive types of floor and wall coverings, and can be used seamlessly on all surfaces including stairways and wet areas.

Paint flakes are colourful, tough and easy to use.

They stand up to hard wear at home or in a commercial setting like garage or workshop, providing a low maintenance, durable finish.

Paint flakes won't harbour bacteria and provide a hygienic coating for floors or other surfaces in kitchens, toilets and bathrooms. Paint flakes are suitable for all commercial and institutional use including schools, canteens, laboratories and hotels.

- Seamless
- Graffiti resistant
- Water resistant
- Suitable for high traffic areas
- Will NOT harbour bacteria
- Wear resistant
- Unlimited combinations
