1. PRODUCT AND COMPANY IDENTIFICATION

Product Name: E-SEAL

Trade Name: E-SEAL, Penetrating Concrete Sealer, Potassium Concrete Densifier

Recommended Use: To increase surface strength, combat freeze damage and limit penetration of stains to concrete.

Revision Date: 1 March 2011

Company Name: On-Crete Australia Pty Ltd

Address: 4 / 489 Scottsdale Drive

Varsity Lakes, Qld, Australia 4227

Telephone: (07) 5593 6884

Fax: (07) 5593 6885

Emergency Contact: In the event of emergency human exposure contact the Poisons Information Centre

Ph: 131136

Other Information: www.on-crete.com.au

2. HAZARDS IDENTIFICATION

HAZARDOUS ACCORDING TO THE CRITERIA OF NOHSC

Potential Health Effects

Eye

Can cause eye irritation. Symptoms include stinging, tearing, redness, and swelling of eyes.

Skin

Can cause skin irritation. Symptoms may include redness and burning of skin, and other skin damage.

Swallowing

Swallowing this material may be harmful or fatal. Symptoms may include severe stomach and intestinal irritation (nausea, vomiting, diarrhea), abdominal pain, and vomiting of blood. Swallowing this material may cause burns and destroy tissue in the mouth, throat, and digestive tract. Low blood pressure and shock may occur as a result of severe tissue injury.

Inhalation

Breathing of vapor or mist is possible.

Symptoms of Exposure

Signs and symptoms of exposure to this material through breathing, swallowing, and/or passage of the material through the skin may include: irritation (nose, throat, airways).

4. FIRST AID MEASURES

Eyes: Immediately flush eyes with plenty of water for at least 15 minutes holding eyelids apart to ensure flushing of the entire eye surface. Seek medical attention as soon as possible if symptoms persist.

Ingestion: DO NOT induce vomiting. If vomiting occurs spontaneously, keep airway clear. Seek medical attention IMMEDIATELY. NEVER induce vomiting or give anything by mouth to an unconscious patient.

Inhalation: Move victim to fresh air. Persons administering first aid to overexposure victims should carefully wash off any visible product from the victims face. Do not give anything by mouth to an unconscious person. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult administer oxygen. Seek medical attention if ill effects persist.

Skin: Wash with plenty of soap and water. Remove contaminated clothing and footwear. Wash clothing and contaminated footwear before reuse. Seek medical attention if irritation persists.

Advice to Doctor: Treat symptomatically.

5. FIRE FIGHTING MEASURES

Extinguisher Media: On large fires use dry chemical, foam or water spray. On small fires use CO2, dry chemical or water spray.

Special Protective Equipment: Self contained breathing apparatus and protective clothing should be worn.

Hazardous Polymerisation: Will not occur. Material can splatter above 100 degrees Celsius. Dried product can burn.

Hazardous Decomposition Products: Under fire conditions, alkaline fumes and silica are emitted

Stability: Stable.

6. ACCIDENTAL RELEASE MEASURES

Steps to be taken if material is released or spilled:
Wear appropriate protective clothing. Restrict access to contaminated area. Stop spill at source. Dike to prevent spreading. Collect free liquid into a recovery vessel. Absorb remainder with sand or clay and place in a properly labeled waste receptacle. Follow all government and local body regulations for disposal. Do not contaminate water while cleaning equipment or disposing of wastes. Prohibit contamination of streams, lakes and other bodies of water.

Container Disposal:
DO NOT reuse container. Dispose of safely.

7. HANDLING AND STORAGE

Handling & Storage: Avoid contact with eyes and skin. Handle in accordance with good industrial hygiene and safety practices. Wash hands thoroughly after contact. Wear protective clothing when risk of exposure occurs. Do not breathe vapours mist or gas.

Storage: Store in a cool, dry place out of reach of children, and away from oxidizing substances. Keep from freezing – product stability may be affected. Stir well before use.

Storage Temp: Store at 1-49 degrees Celsius

Recommended Packaging: Polyethylene, PVC, PE lined mild or stainless steel.
8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Controls: No exposure standards have been established for this material by NOHSC.

Biological Limit: No biological limit allocated.

Ventilation Requirements:
Good industrial hygiene practice dictates that indoor work areas should be isolated and provided with adequate local exhaust ventilation, if risk of overexposure occurs.

Respiratory Protection:
None normally required if good ventilation is maintained. If mist is generated during application process, an approved mist respirator with organic vapour filters must be used. Reference should be made to AS/NZS 1715 and AS/NZS 1716 Use and Maintenance of Respiratory Protective Devices for individual circumstances.

Eye Protection:
Eye contact must be avoided. Safety goggles with side shield or a face visor should be worn.

Skin Protection:
Skin contact must be avoided and good personal hygiene practices observed. Protective clothing including impervious chemical nitrile gloves should be worn.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance/Odour: Clear/ Slightly Amine
Specific Gravity: 1.1 to 1.3 @ 20C
Solubility in Water: Excellent
Flash Point: Not Applicable. Water based solution
pH: 11.5
Boiling Point (°C): 100 degrees Celsius
Freezing Point: 0 degrees Celsius

10. STABILITY AND REACTIVITY

Stability: Products of this type are stable and unlikely to react in hazardous manner under normal conditions.
Incompatibility: Acid
Hazardous Polymerisation: Will not occur
Hazardous Decomposition: Under fire conditions, alkaline fumes and silica are emitted

11. TOXICOLOGICAL INFORMATION

No data is available for this material. The information shown is based on profiles of similar materials.

12. ECOLOGICAL INFORMATION

Not Available.

01 March 2012

Product Name: E-SEAL
13. DISPOSAL CONSIDERATIONS

Dispose of via an authorized person/licensed waste disposal contractor in accordance with local regulations. Incineration may be carried out under controlled conditions provided that local regulations for emissions are met. Dispose of product and container responsibly and carefully. Do not dispose of near waterways, down drains or into soil.

14. TRANSPORT INFORMATION

Not classified as hazardous for transport (ADG, UN, IATA/ICAO)
