TECHNICAL DATA & APPLICATION SHEET

WATER REPELLENT RP120

FOR PROFESSIONAL USE ONLY

PACKAGING 5 Litre & 20 Litre Plastic Bottle

DESCRIPTION RP120 is an excellent water repellent for many absorbent materials, such as bricks, sand-lime brick, natural sandstone and mineral plaster. It is not suitable for less absorbent dense natural stone, especially limestone, marble and reinforced concrete for bridges and roads. Owing to its aqueous consistency and storage stability, RP120 is ideal for building materials made of clay, aerated concrete, sand-lime brick, fibrous cement minerals fibers and lightweight aggregate.

SPECIAL FEATURES
- Good depth of penetration
- Rapid development of water repellency
- Highly durable and effective beading effect
- Tack-free drying
- Provides good adhesion for paints
- Water based and environmentally compatible
- Stable in storage

APPLICATION
MATERIAL SAFETY DATA SHEET MUST BE READ BEFORE OPENING THIS PRODUCT.

Before applying Water Repellent RP120, be sure to cover windows and other non-absorbent surfaces properly because the product cures so quickly that it will be extremely difficult, if not impossible, to remove after a few hours. Wipe off any splashes on window panes immediately, using an IMS if necessary.

Flooding is the preferred way. Two “wet on wet” coats are needed to ensure complete coverage. If it starts to rain, stop treatment and cover the impregnated areas.
**USAGE RATE**
The figures quoted below are intended as a guide only:

<table>
<thead>
<tr>
<th>Material</th>
<th>Usage Rate [L/M²]</th>
</tr>
</thead>
<tbody>
<tr>
<td>Concrete</td>
<td>0.25 – 0.5</td>
</tr>
<tr>
<td>Plaster</td>
<td>0.5 – 1.0</td>
</tr>
<tr>
<td>Sand-lime brick</td>
<td>0.4 – 0.7</td>
</tr>
<tr>
<td>Brickwork</td>
<td>0.4 – 2.0</td>
</tr>
<tr>
<td>Aerated concrete</td>
<td>0.5 – 2.0</td>
</tr>
<tr>
<td>Cement fiberboard</td>
<td>0.1 – 0.3</td>
</tr>
<tr>
<td>Natural stone</td>
<td>0.05 – 3.0</td>
</tr>
</tbody>
</table>

**STORAGE**
Storage of product should be undercover, away and out of direct sunlight and avoid extreme temperature changes.

**SHELF LIFE**
Under normal storage conditions, in unopened containers, this material would have a shelf life of 12 months from date of manufacture.

**CLEANING**
Clean equipment with water.

**SAFETY**
Refer to the Material Safety Data Sheet before handling or using this product.
DISPOSAL
The same as for hazardous substance or as required by local authorities.
